

# **This is a Changing Places toilet.**

**It has extra space, a peninsular toilet, a ceiling track hoist and a height-adjustable, adult-sized changing table for disabled users and their family carers.**

**Changing Places toilet users do not always have visible disabilities. For example, some may wear adult pads due to an invisible condition, or some may require the extra space that this facility has due to an underlying condition.**

**Please only use this facility if you need to.**
